WEB APPLICATION

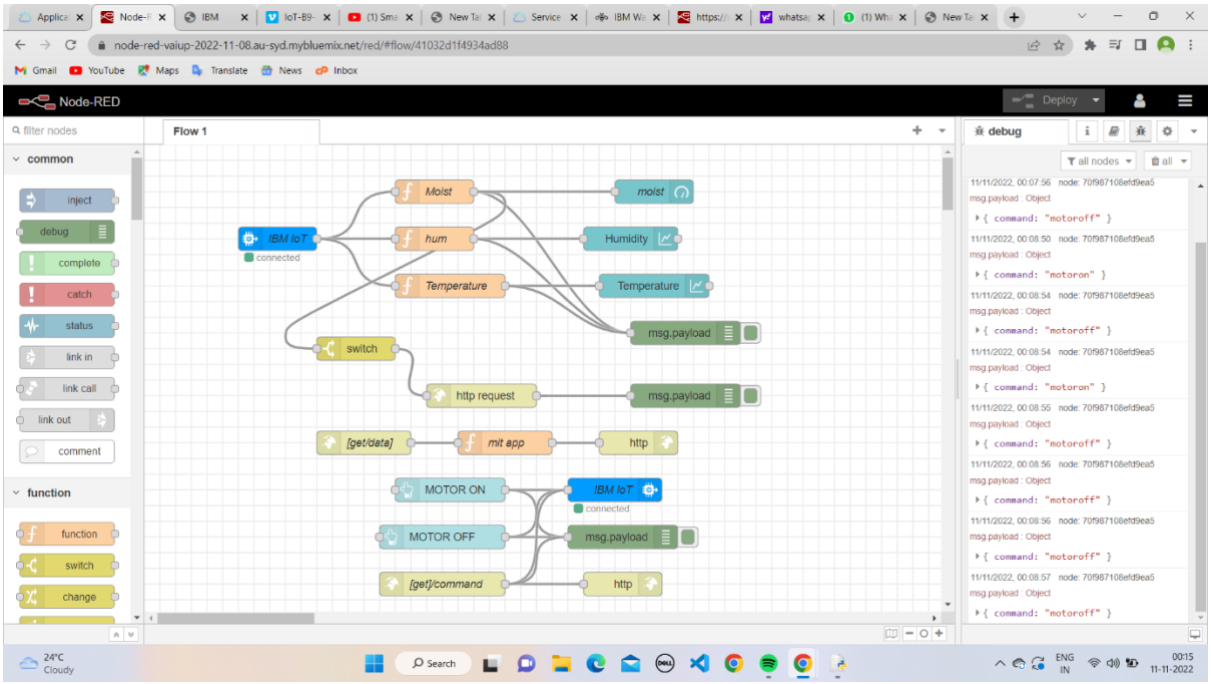
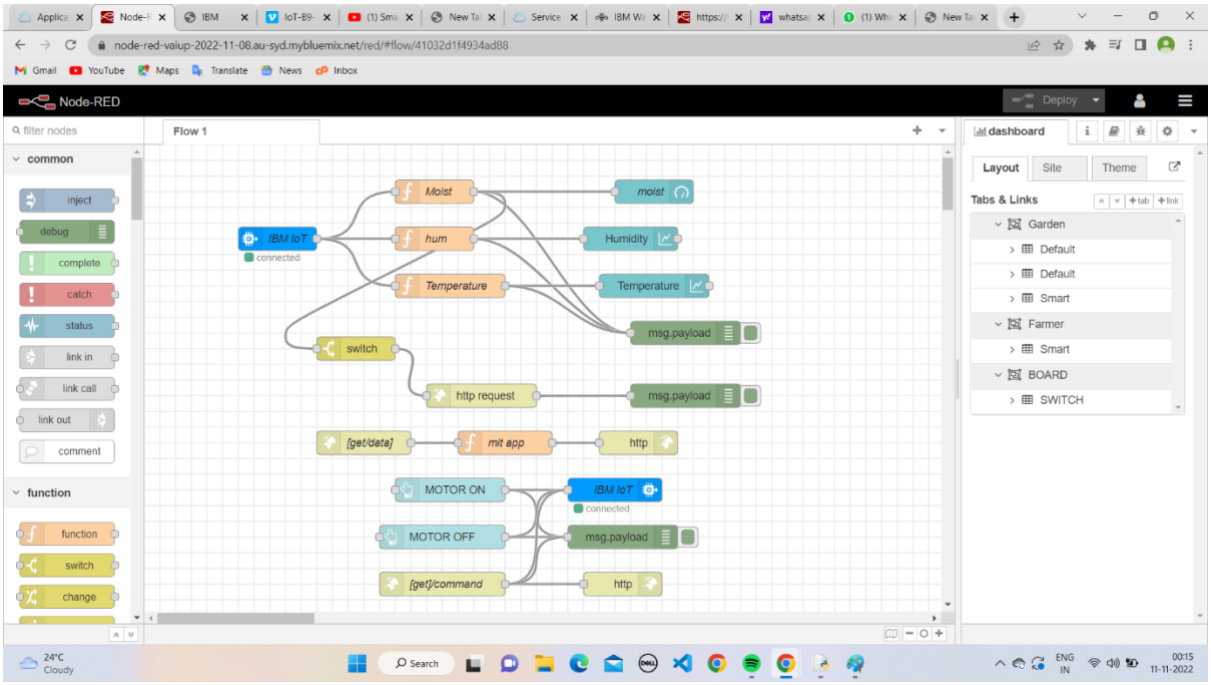
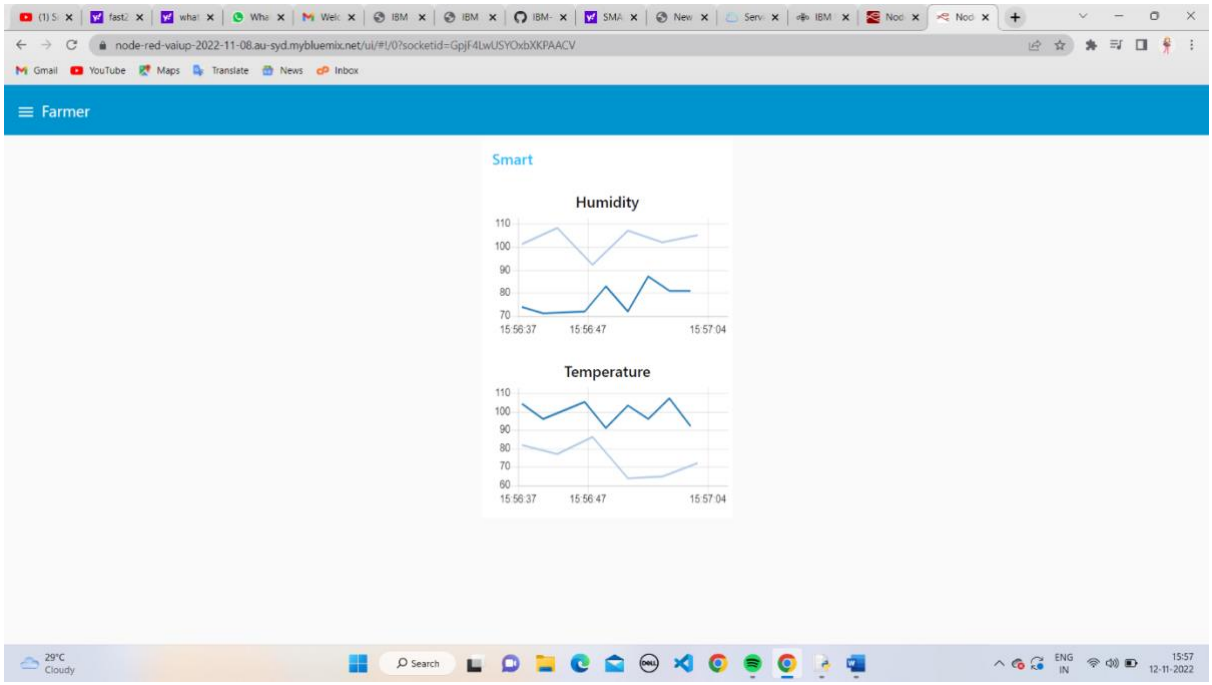
Creation of Webpage using NODE RED Via IBM Cloud



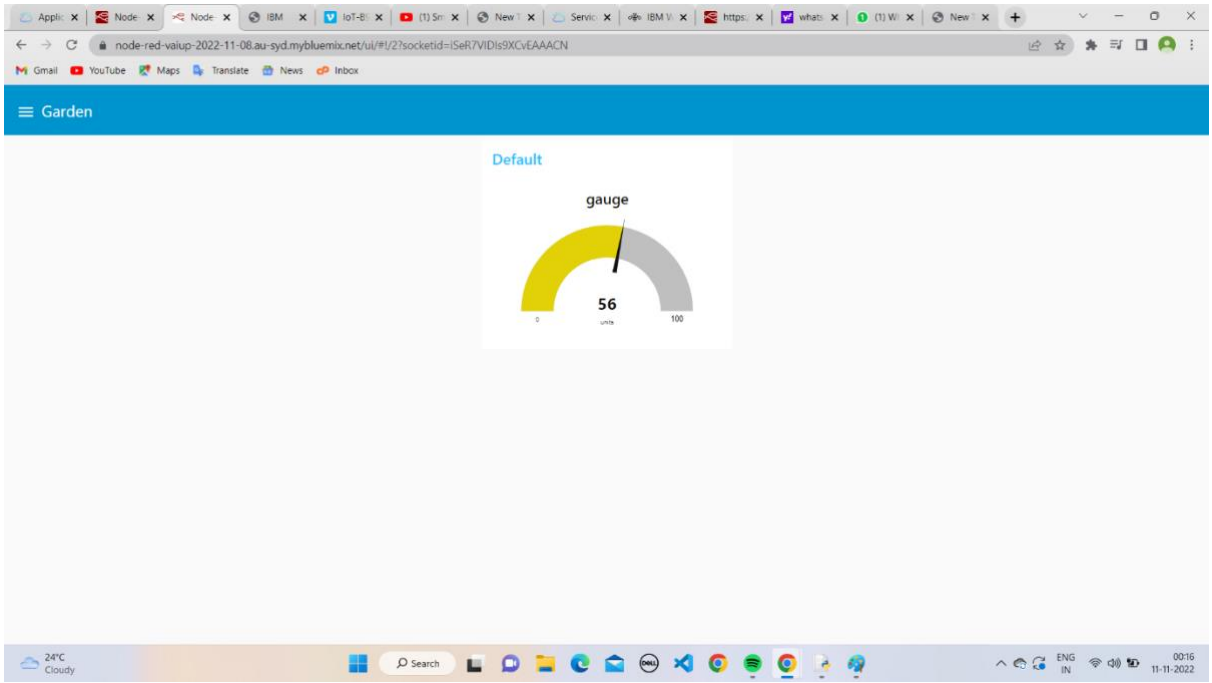
1) In NODE RED Page once we click the dashboard and then the right arrow present beside tabs& links shown below we would be directed to the webpage.

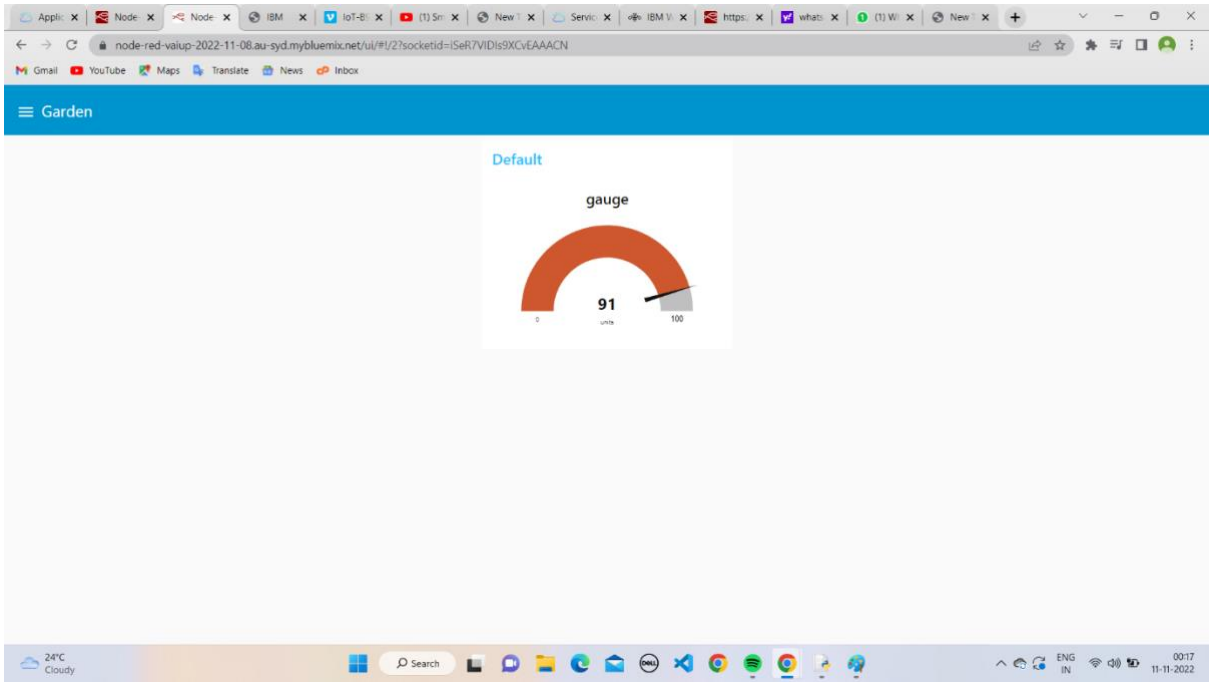


2)The below chart shows the obtained values of Humidity and temperature for past 1 hour.



3)The below gauge shows the obtained value of Moisture and the color variations used to indicate the low moisture high moisture levels.





4) Buttons are also present based on the charts and gauges the farmer can control the device using this webpage
